PETITION FOR RULE MAKING (Flora, MS)

Now comes MissAla RF before the Policy and Rules Division to petition for the allocation of a new FM radio channel at Flora, Mississippi on channel 280A. No changes to existing stations are required to place channel 280A at Flora other than a trigger of WUSW Hattiesburg, MS on channel 279C. According to the CDBS, WUSW is operating with an antenna height of 322 meters instead of 451(+) meters, and as of January 18, 2002 did not have an application on file to maintain a class "C" designation.

Therefore, MissAla request the FCC issue a notice to the licensee of WUSW that it be triggered to class C0 immediately and that channel 280A be put at Flora as a result of that trigger.

Petitioner's Exhibit A shows that channel 280A can be placed at Flora without creating short spacing once WUSW is triggered to class C0. Petitioner's Exhibit B is a 'TIGER' map with a 16.2-kilometer circle representing 70 DBU. It shows that this new channel gives city grade strength to Flora.

No. of Copies rec'd 044
List ABCDE
14B 02-123

According to the CDBS, The FCC can send the trigger notice to the WUSW licensee at:

Our records contain the following address(es) for above licensee(s):

CALL SIGN	WUSW				
LICENSEE	CAPSTAR TX LIMITED PARTNERSHIP				
MAILING ADDRESS	2625 S. MEMORIAL DRIVE, SUITE A				
CONTINUED ADDRESS					
CITY	TULSA	STATE	OK	ZIP	74129-

MissAla RF will file an application for a CP to own and operate a new FM station of channel 280A at Flora, MS after the FCC puts the new channel there.

MissAla RF has attached a proper signature page and verification to the petition for rule making.

MissAla RF certifies that it has sent a copy of this petition to the WUSW licensee at the following address;

CALL SIGN	WUSW				
LICENSEE	CAPSTAR TX LIMITED PARTNERSHIP				
MAILING ADDRESS	2625 S. MEMORIAL DRIVE, SUITE A				
CONTINUED ADDRESS					
CITY	TULSA	STATE	OK	ZIP	74129-

Based on the data given to MissAla RF, the FAA will not allow a tower high enough to give WUSW an antenna of 451 meters. So, the licensee should have no problem with the C0 trigger.

There is another parallel petition for rule making in Alabama that can be allocated at Frisco City on channel 278A if WUSW is classed at a C0. Two new local services can be created with the WUSW C0 classification. This appears to be high public interest matters. MissAla RF request that the FCC act quickly and positively on the petition since high public interest concerns are at stake.

Petitioner's Exhibit A

¹ Proposed Community of License - Flora, MS @ NL: 32° 32' 35", WL: 90° 18' 32"

² Proposed 'trigger' to class C0. See spacing for WUSW as a C0 in above study

³ Clearance for 'triggered' class C0.

Petitioner's Exhibit B

Certification

I, Heather Hill, do hereby verify that all claims, representations, and statements, contained this petition for rule making are true and correct to my best knowledge and belief. Based on the engineering prepared for me at the date of the allotment studies, channel 280A can be allotted to Flora, MS by following the procedure presented in the petition.

Thank you for your prompt consideration of this matter.

**Respectfully Submitted,
MISSALA**
